Holy Cross High School Computer Usage Policy

A network of programs, including access to the Internet is available to students and teachers. The proper use of this technology is essential. Students and parents are required to sign a "User Contract" at the beginning of the school year agreeing not to use these services inappropriately.

(General Computer Network Usage Rules for Students)

- a) Do not share passwords
- b) Students may only log into the system using their own account name and password.
- c) No messages are to be sent over the network. This also includes notes or letters written to other students.
- d) Do not install software on the network without permission
- e) Material composed, viewed, sent, or downloaded on the computers should be free of language or graphics deemed offensive or obscene by school standards.

Failure to comply with the rules set forth in the agreement for computer network usage will be considered a breach of that agreement. A user who violates this policy and breaches his/her agreement, shall at a minimum, have his/her access to computer network and Internet terminated, which the school may refuse to reinstate for the remainder of the student's tenure in the school. In addition, the school may take additional disciplinary action.
